PROFILE

Informatics graduate with a strong interest in Data Analytics and Business Intelligence. Experienced in data processing, analysis, and visualization to generate actionable insights that support business decision-making. A detail-oriented, analytical, and adaptable individual with a strong willingness to learn.

EDUCATION

Jenderal Soedirman University

September 2022 – February 2026

Bachelor of Informatics | GPA: 3.68 / 4.00

Relevant Coursework: Database Systems, Web Programming, Data Mining & Text Mining, Machine Learning.

INTERNSHIP EXPERIENCE

Telkom Indonesia – Regional Purwokerto

September – October 2025

Infrastructure Intern

- Supported infrastructure operations through data monitoring and validation.
- Performed routine data verification to ensure data accuracy and system reliability.
- Assisted in maintaining operational data to support infrastructure performance.

Department of Communication and Information Technology of Central Java Province

July – August 2024

IT Intern

- Developed the admin module for the E-Pegawai web application, including employee data management and user authentication.
- Contributed to the asset management system through data processing and data entry to improve asset tracking accuracy.
- Developed the Service History feature to monitor asset maintenance records.
- Performed Black Box Testing and system improvements to enhance application performance and reliability.

PROJECT EXPERIENCE

SuperStores US Sales Dashboard (*Power BI*)

July 2026

Personal Project

- Developed an interactive Power BI dashboard to analyze KPIs, sales trends, regional performance, product categories, and manufacturers.
- Designed a Star Schema, transformed data using Power Query, and created business metrics using DAX.
- Delivered business insights through interactive visualizations to support data-driven decision-making.

Retail Customer Churn Analysis Using Python

July 2026

Personal Project

- Performed data cleaning, data preparation, and Exploratory Data Analysis (EDA) using Python and Pandas.
- Developed a Logistic Regression model to predict customer churn and evaluated its performance using Accuracy, Precision, Recall, and Confusion Matrix.
- Provided customer retention recommendations based on analytical findings and predictive modeling results.

Web-Based Nutritional Status Diagnosis Expert System

October 2025 – January 2026

Final Project

- Developed a web-based expert system using Flask, SQLite, and Tailwind CSS to diagnose nutritional status and provide personalized recommendations.
- Designed the system logic using Fuzzy Logic and Decision Tree algorithms to generate accurate diagnoses.
- Conducted Black Box Testing and User Acceptance Testing (UAT) to ensure system reliability and usability.

Sentiment Analysis of the 2024 Indonesian Presidential Inauguration on X Platform

November 2024

Data Science Project

- Performed text preprocessing and TF-IDF feature extraction for sentiment analysis using data collected from X.
- Developed a Naïve Bayes model enhanced with SMOTE to address class imbalance and improve classification performance.
- Published the research in a SINTA 2 indexed journal.

CERTIFICATIONS

- **Microsoft Excel Intermediate — MySkill (2026)**
- **Data Analytics in Power BI — MySkill (2026)**
- **Business Decision Research — DQLab (2026)**
- **Fundamental SQL Series — DQLab (2026)**

ORGANIZATIONAL EXPERIENCE

HMIF UNSOED 2023

March – Desember 2023

Secretary of the Student Resource Development Division (PSDM)

- Managed administrative documents, meeting minutes, and division documentation.
- Organized work schedules and supported the implementation of division programs.
- Facilitated internal coordination and communication to ensure smooth operations.
- Participated in monthly staff performance evaluations.

COMMITTEE EXPERIENCE

Maskrab Makrab (MM), Informatics Department, Jenderal Soedirman University

2023–2024, 2024–2025

Event Division Staff

- Designed event concepts and activity flow for new student orientation programs.
- Coordinated with committee members to ensure smooth event preparation and execution.

Informatics Championship (IC), Informatics Department, Jenderal Soedirman University

2022, 2023

Event Division Staff

- Assisted in organizing internal sports and arts competitions within the Informatics Department.
- Contributed to event planning and operational coordination during the competition.

SKILLS & LANGUAGES

Data Analytics: Power BI, SQL, Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization, Basic Machine Learning (Logistic Regression).

Programming Languages: Python, SQL, C#.

Database: PostgreSQL, MySQL, SQLite.

Software Testing: Black Box Testing, UAT, API Testing.

Tools: Power BI, Google Colab, Jupyter Notebook, Git, GitHub, Visual Studio Code, Postman, Microsoft Office, Google Workspace.

Soft Skills: Analytical Thinking, Communication, Teamwork, Adaptability, Problem Solving, Time Management, Attention to Detail.

Bahasa: Indonesian (Native), English (Intermediate).
